EXPERIENCE

UNC Charlotte Bootcamp, Charlotte, NC — *Student*

July 2020 - October 2020

Completed a 12 week intensive full stack bootcamp. Learned front-end and back-end technologies such as HTML5, CSS3, JavaScript, JQuery, Bootstrap, React.js, Node.js, C#, .Net, Database theory, MongoDB, MySQL, Command Line, and Git. Successfully completed multiple team projects, including a final project which featured a full functioning e-commerce site. Responsibilities for the final project included:

- Architecting overall project design, including managing the team development repository and delegating initial responsibilities to team members
- Creating and integrating the database using Sequelize
- Defining the server side routes and controllers using Express
- Styling the User Interface (UI) using HTML, CSS and Javascript
- Managing the development of the project, including testing UI and overall integration
- Presenting project to local businesses, faculty, and class

Professional Sports Publications — Charlotte, NC
Sales Manager

January 2017 - March 2020

Responsible for maintaining a team of sales representatives including training, setting expectations, and maintaining accountability. Utilized communication skills, while gaining valuable experience in team management.

American Income Life — Wilkes-Barre, PA
Benefits Coordinator

April 2015 - November 2016

Responsible for building and maintaining a book of clientele. Scheduled face to face meetings with clients to coordinate union granted benefits. This role helped build communication and time management skills.
